

JULY 2011

Field Technical Specialist- US (Las Vegas)

An industry leader, NRT is looking for a dynamic candidate who is motivated and passionate about working for an industry leader in technology!

NRT is the recognized industry leader in self-serve redemption and jackpot solutions, and has placed over 4,500 devices in over 300 casino locations throughout Canada, United States, the Caribbean, Europe and Asian gaming markets.

We offer a competitive salary, group benefits (health, vision, dental and life insurances), career advancement opportunities, challenging work, and a convenient work location!

Our environment is entrepreneurial and fast-paced. Individual and creative contributions to our company objectives are highly encouraged and recognized. There will be an abundance of opportunities to develop new skills and to benefit from interaction with a highly experienced leadership team.

Role

Responsibilities of this individual entail various aspects of the system life cycle including but not limited to hardware/software technical support, training and installation of the NRT solution. The successful candidate, while assigned to a specific region, will be responsible for developing and maintaining customer relationships in their area and must be able to work independently. This position will be primarily situated within Las Vegas, but will report directly to the Director of Technical Services in Toronto, Canada.

Key Responsibilities

- Fast and complete understanding of the client's requirements
- Reviews, analyzes, and evaluates information technology systems operations
- Familiar with standard networking concepts, practices, and procedures
- Provides support to end users on a variety of issues
- Comfortable with dealing with all levels of management
- Identifies, researches, and resolves technical problems
- Responds to telephone calls, email for technical support
- Relies on experience and judgment to plan and accomplish goals
- Installs/implements/configures upgrades and complete solutions onsite
- Conducts on-site technical and sales training to employees, partners, customers, and end-users worldwide
- Participates in the development, editing, evaluation, and validation of technical and sales training course materials
- Able to represent the Company's image and brand – professional relations with customers of the Company in all situations, at all times
- Extensive travel required – estimated at 75 percent

Required knowledge, skills, experience and qualifications

Education and Training

- Successful completion of an undergraduate university degree or an IT/business program from a Community College
