---

### REAL-TIME MANAGEMENT

Experience the award winning CHS® backoffice enterprise management and monitoring system. Obtain real-time unit statistics, events, alerts and reports on one powerful web-based platform.

## SOLUTIONS

---

INCREASING EARNING POWER AND EFFICIENCY PLAYS A KEY ROLE IN ALL NRT SOLUTIONS. DESIGNED AND BUILT FOR CASINO OPERATORS AROUND THE GLOBE, OUR CUSTOMER CENTRIC APPROACH HAS ELEVATED OUR PRODUCT PORTFOLIO TO ONE THAT MAKES A DIFFERENCE IN OUR CUSTOMERS OPERATION. WITH THE MOST ADVANCED SOLUTIONS, INTEGRATION AND PAYMENT PROCESSING PLATFORM, **NRT IS POSITIONED TO EQUIP YOUR CASINO WITH RELIABLE AND EFFECTIVE SOLUTIONS** THAT MAXIMIZE REVENUE OPPORTUNITIES WHILE ENHANCING YOUR CUSTOMERS EXPERIENCE ON THE CASINO FLOOR.

“At approximately 1:01 am on March 3, 2014, We started receiving email notifications from the NRT Back office for our Quickpay unit located at one of our VGT locations . The alerts notified me that the doors were being opened, this was alarming to us as we knew the location was closed for the night. After checking with the NRT Customer Support Center and confirming that the doors were being opened, we immediately called the police. The burglars were caught red handed and arrested on site. The NRT System has given us the peace of mind that our money will be secure, and the ability to know about any suspicious activity after hours.”

**JOE ANCELL**  
**M.S. General Manager**  
*Sky High Gaming, Illinois.*

1

## CASH HANDLING

Your casino guests can easily process every transaction with our industry leading QuickJacks, this makes our kiosk solutions the first choice for casino operators.

## NRT FINANCIAL SERVICES SUITE

---

NRT provides the most innovative payment processing, cash handling and cash management products, services and solutions in the casino industry. NRT's world-class payment processing (cash access) solution connects to all financial institutions, giving your casino patrons instant access to ATM, credit card cash advance, POS Debit, Dynamic Currency Conversion, Express Ticket™ and electronic check cashing services at the cage and kiosk, all in one fully integrated package. This provides your patrons with ultimate flexibility and ensures maximum cash-to-the-floor for your casino.

These convenient services consist of the following cash access points:

- Cash Advance (credit & debit)
- ATM
- Dynamic Currency Conversion
- Express Ticket™
- Electronic Check Cashing
- QuickData™
- Cage Centre™

Seamlessly add NRT's cash access services to all of your QuickJack and ABM machines and receive detailed and transparent transaction reporting with ongoing customer support. We work with you on every aspect of the process, from the device and user experience to the national and world-wide banking networks. Our fully integrated solution enables flexibility, accountability and reliability.

## CAGE

Complete transactions quickly and easily, and simplify workflow for your staff. Cage Centre provides debit & credit cash advances; check cashing services, and detailed reports through the web. Cashiers can connect to Cage Centre's simple interface, allowing them to populate patron data automatically through an ID, or manually using our tips and tools. When needed, an array of cage reports is always just a click away.

### BENEFITS

- Improve transaction time & accuracy
- Simplify cashier training
- Retrieve patron data automatically
- Track all transactions
- Fraud control
- Total Control of Payment Systems

### FEATURES

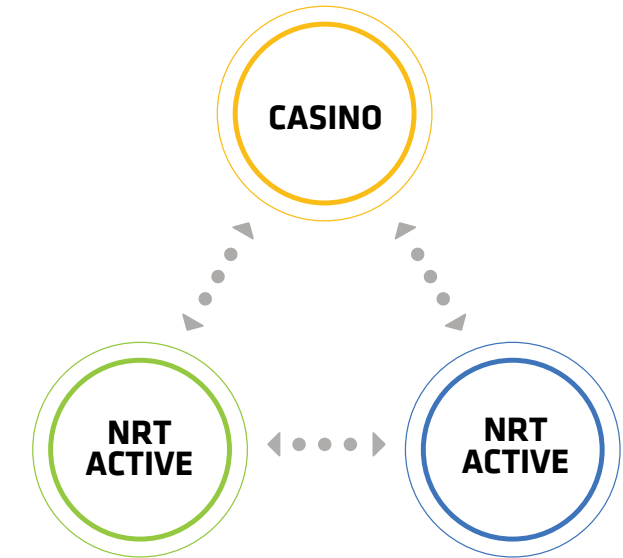

- Initiate credit & PIN debit transactions.
- Retrieve pre-authorized ATM transactions.
- Electronic settlement; no checks to deposit.
- Auto-populated ID swipe & barcode reader technology.
- Customizable fee waiver and VIP fee discounting options.
- 24/7 monitoring & call centre for referral transactions.
- Excluded patron program.
- Loyalty card tracking.
- Casino-determined controls & access.
- Optional address verification and CVV entry.
- Title 31 tracking on every transaction.
- E-Check service at QuickJack and CageCentre.

## ACTIVE-ACTIVE PAYMENT PROCESSING INFRASTRUCTURE

Up-time is our number one priority and NRT is committed to our customer's success. We win, when you win. This means providing the most reliable payment processing infrastructure in the industry.

- NRT operates two PCI compliant mirrored data centers located in separate geographic sites, with a private LAN extension connecting the two sites.
- Each site has redundant telecommunication links to the networks, internet and third party processors with dual routers and dual circuit configurations.
- The databases are synchronized and backed up daily. The backed up data is stored off site and tests are regularly conducted to ensure the data is recoverable.
- Peer-To-Peer replication is bi-directional allowing both databases to be online and active simultaneously. Replication occurs real-time rather than at intervals, mitigating potential for data loss.
- When scheduled maintenance is performed at one data center, all transactions are automatically routed to the other active center.

**Data Security:** NRT maintains PCI-compliant systems and processes both within and among its business partners. Our highly advance systems encrypt data from the ATM and Cage Centre level such that our clients have no exposure with data transfer through casino local area networks. Encrypting the entire message at the device level is a step above what is required by PCI. This process enables NRT to utilize existing property internet services to conduct transactions without any special encryption hardware or routers to maintain. Utilizing the existing internet services lowers the cost of operations, and the savings are passed to you through increased commissions.

## QUICKBANK

POWERED BY 

QuickBank is the next generation of cage automation using a revolutionary high capacity cash recycling technology, coupled with several choices of coin handling devices, employees can withdraw and deposit floats and wallets automatically. With QuickBank, you can expect:

- Reduced labor costs by automating cash handling
- Increase cash utilization ratio by customizing floats and wallet size
- Increase time on floor by reducing time spent on pre-shift and post-shift routines
- Improve security and eliminate shrinkage

### HIGHLIGHTS

- Foreign Object detection on the input/output tray.
- Cash dispensing and Depositing.
- UL291 Level 1 Safe
- High cash capacity: up to 16,000 notes.
- 4 high capacity cassettes. (2,500 notes each)
- 4 compact cassettes (1,500 notes each)
- NRT Cash Cycle Management System (CCMS) ready
- Front load for employee interface
- Input/Output of up to 200 banknotes at a time.
- Intermediate storage/escrow.
- Processing speed of over 10 banknotes per second.
- Recycle of up to 7 denominations.

### OPTIONAL FEATURES

- Rolled coin dispensing
- Loose coin dispenser
- Bulk coin deposit
- Coin recycler
- Multiple currency support – ability to accept foreign currency.
- Electronic combination safe lock

“The only thing that rivals the efficiency and excellence of the NRT product is the amazing job they did with the installation! Everything was organized, professional, and timely - It couldn't have gone any smoother than it did. “

**LORRAINE NEVINS**  
**Director of Slot Operations**  
*Mohegan Sun Casino*

## CHS Enterprise Management Solution

### REPORTING & MONITORING

- Customized reports to meet your operational requirements.
- Real-time alerts and notifications via e-mail and SMS.
- Detail and Summary Reports for Audit & Accounting.
- Transaction, device and event reporting on all transactions.
- Monitor multiple properties within your casino enterprise centrally.

### AVAILABILITY & RELIABILITY

- Zero downtime as QuickJacks will continually process transactions in the event of lost connection to backoffice or internet/LAN.
- Real-time graphical dashboard of machine status and cash positions.
- Transaction reporting on ATM and Cash.
- Advance for dispute resolution and audit.
- Intuitive backoffice interface for quick training of new users.
- Integrated notification paging system.

### UNIT & FLEET MANAGEMENT

- Flexible Admin-send commands to a specific QuickJack, a group or all units on demand.
- Comprehensive Event and Device tracking via dashboard feature.
- Over 300 real-time alerts.
- Manage and monitor “on the go” with CHS Mobile app for iOS and Android.
- Real-time statistical data of the “health and wealth” of your fleet of units on the casino floor or anywhere in the property.

### SMART. SIMPLE. SECURE.

- CHS is the Award Winning Backoffice Enterprise System.
- First Choice for gaming operators globally.
- Licensed and Approved in every major gaming jurisdiction.
- Interfaced with all the leading Slot Management Systems.
- Experience the NRT difference.

## CHS APPLICATIONS

CHS® and its advance customer centric application suite has been the foundation for gaming operators looking to enhance their casino patrons experience. For over a decade this sophisticated system captures, manages and reports on both the transactional activity, events and the overall "health" of the platform. This web-based technology can connect you to every NRT hardware product simultaneously carrying out functions such as ticket redemption, bill breaking, player points and cash advances transactions, just to name a few. The user experience is an important and valuable driver in the innovative CHS application portfolio. NRT has integrated over a decade of experience with this product in the field building in major efficiencies, flexibility and capabilities to the enterprise solution that will drastically reduce the time it takes to process so you can work, Smart, Simple and Secure.

- Ticket & Multi ticket redemption
- Bill breaking
- Currency exchange
- ATM transaction
- Check Cashing
- Credit Card Advance and POS Debit
- Player points redemption
- Attendant Jackpot dispensing
- Employee Float dispensing
- Parking validation
- E-coupon redemption
- Pre-paid card transaction
- Stored value card or wagering
- TITO ticket printing for coinless
- Express Ticket -slot ticket or cash option
- Multi Languages
- Custom applications available

## CHS HOSTED SERVICES

Managing a SQL Server and database requires investments in hardware, licenses and technical resources. With NRT's new Hosted CHS BackOffice, customers can now benefit of having access to a full range of reports and monitoring of their NRT kiosks, without the headaches of having to manage their own SQL server onsite.

- Full access to real-time monitoring and management of all unit activity and availability via a web based application.
- Significant IT related cost reductions
- Access to customized reports with enhanced report filtering:
  - Machine Status
  - Machine Configuration
- Data hosted in a PCI compliant Data Center.
- Security and privacy to each property's data.
- Properties will only have access to their own data.
- Data can be downloaded on Demand.

## CHS MOBILE

Casino operators can conveniently walk the casino floor and have access to their system data and receive the same system alerts and transactional events & details that reside in the back office. With our native iOS and Android app you will get the same rich data that you receive in the backoffice now in the convenience of a tablet and/or smart phone device.

### TRANSACTIONAL DETAILS

You get the same real-time transactional information with filtering and search capabilities you quickly and efficiently navigate through the system.

### DISPUTE RESOLUTION

This innovative feature starts with a quick look up or search of the transaction or event that is being disputed by a casino guest. Once you found the transaction or event in question you can walk the guest through the detail that was reported to the backoffice and help them to a resolution quickly. Once a dispute is resolved you can add a note and post it to the system for auditing purposes. Reduce waiting times by 30-60 minutes.

## CUSTOMER SUPPORT CENTER

All NRT solutions are backed by its around-the-clock customer support, through either our web-based client portal, or directly over the telephone. For those unwanted moments, NRT has you covered. NRT delivers courteous, efficient, and quality service to our clients. We are always happy to help you find the answers you need and the solutions you deserve. NRT has built strong relationships with the most reliable tier 1 hardware service providers in the world to service your NRT products.

- Efficient, streamlined assistance – CSC serves as a single point of contact for both hardware and software support needs.
- Advanced trouble ticketing system created a knowledge base of issues and interventions.
- Leverage prior issue database and common resolutions for efficient and reliable service.
- Peace of mind – customers have access to phone support, any time, day or night 24/7/365.
- Real people, real solutions – our technical support understand unique requirements of the casino industry.
- Highly experienced employees to handle your every need.
- Everything handled in-house – diagnose, triage, dispatch, escalation, resolution.
- Proprietary event capturing and monitoring system allows for unmatched customer support.

**OUR PHILOSOPHY**

---

UNDERSTAND AND SERVE THE CUSTOMER BETTER THAN ANYONE ELSE, DELIVER ON YOUR WORD AND OPERATE WITH INTEGRITY, HONESTY AND PERSEVERANCE.

*Since 1993, NRT has been a pioneer in the gaming industry, leveraging innovative technologies that improve the casino experience. Utilizing NRT's innovative cash handling system and executing the first automated jackpot payout, Our comprehensive ticket redemption solution has changed the casino guest experience. Streamlined casino operations and eliminating cage line-ups.*
